Charity Services

Application forms for services provided by the Charities Regulator (Charity Services Committee) under the Charities Acts 1961 and 1973 are located here. These applications include cy-près; consent to the appointment of new trustees; and consent to a disposition of charity property where the charity does not have a power of sale, or is otherwise restricted from dealing with its property. Before making a Charity Services application, please consider the provisions of the governing document of the registered charity and upload it with your application.

Full details of the application types are available [here](#). You do not need to be an Authorised Filer to submit a Charity Services application. Click the button below to see the list of forms available and to submit an application.
