Technology Graduate Development Programme (TGDP)

[Home \(/\)](#) > [Opportunities \(/careers/opportunities\)](/careers/opportunities) > **Technology Graduate Development Programme**

Why join the TGDP?

Our friendly, open, supportive culture will make you feel right at home during this two year structured programme. You'll work with a wide variety of teams to broaden your skills and experience. Whether it's developing core applications, creating innovative solutions or meeting business needs, our technology professionals do it all. These are unique projects that you can't do anywhere else – with real and tangible impact: helping to keep the UK safe.

So, bring your passion for technology, your ability to use technology to solve complex challenges, and an enthusiasm to learn new skills and contribute to our mission.

STARTING SALARY

£44,190

Our starting salary in Central London is £44,190.

CULTURE

Supportive

Down-to-earth, friendly and open, our culture is our greatest strength. We go out of our way to

support each other, making sure everybody always feels welcome and able to bring their whole selves to work. And, of course, you can't take the work home with you, so once you leave the office, we don't expect you to work outside of your working hours.

FUTURE

Career growth

Our training programme is designed to enable you to meet your potential as an innovative technology professional and equip you with the skills and ability to manage and lead in different areas of our technology departments in the future.

Streams

Delivery Manager (MI5)

Software Engineering (MI5 and MI6)

Business Analysis (MI5)

Information and Cyber Security (MI5)

User Experience Design (MI5)

Data Science (Machine Learning and AI) (MI5)

You will learn to apply state-of-the-art data science and machine learning techniques to identify insights from our data at scale. Following a data science training pathway, you will work as part of a

multi-disciplinary data science team to research, develop, test, and optimise machine learning capabilities, and have the opportunity to apply these capabilities to mission focussed requirements from across our organisation.

What we are looking for

To join the Technology Graduate Development Programme, you will have a passion for technology and have (or be expecting) a 2:2 (or higher) by September 2026 in a Science, Technology, Engineering or Mathematics (STEM) subject. We are keen to hear from you, whatever your background. We want to hear from people with different perspectives, identities, and lived experiences. Ensuring better diversity and inclusion is central to our future as an organisation, as we enrich our mix of talents, and everyone is supported to give their best.

Application process

Throughout our recruitment process we will assess your potential to perform in one of our key technology areas within MI5 or MI6.

Application stage

This will test your eligibility which will involve answering some initial questions including more details about you, your motivation and your competencies.

Online cognitive ability test

These scenario questions will enable us to assess your judgement and how closely this aligns with our values and key behaviours for the scheme.

Assessment centre

The assessment centre will consist of interview, motivational fit, communication and a technical interview. There will also be a technical exercise.

Reasonable adjustments

We are committed to providing equitable opportunities throughout the recruitment process, so everyone feels comfortable, supported, and able to do their best. So, if you have a disability, are neurodivergent, or require reasonable adjustments for any other reason, please let us know if we can make any adjustments to support you during the recruitment process. Examples of reasonable adjustments we can provide include, but are not limited to, extra time and more frequent breaks during assessments, and printed materials on coloured paper. You can request reasonable adjustments at any stage of the recruitment process via careers@recruitmentoffice.org.uk (<mailto:careers@recruitmentoffice.org.uk>) for MI5 and careers@recruitmentservice.org.uk (<mailto:careers@recruitmentservice.org.uk>) for MI6. We will do our best to accommodate and support you.

Our other graduate offerings

Intelligence Officer Development Programme (IODP) (<https://www.mi5.gov.uk/careers/opportunities/intelligence-officer-development-programme-iodp>)

As the country faces increased threats to national security, a role as an Intelligence Officer gives you the opportunity to have a tangible impact on the security of the UK.

Intelligence and Data Analyst Development Programme (IDADP) (<https://www.mi5.gov.uk/careers/opportunities/intelligence-and-data-analyst-development-programme-idadp>)

Our Intelligence and Data Analysts use advanced data analytical techniques that place them at the heart of MI5's investigations.

Protective Security Development Programme (PSDP) (<https://www.mi5.gov.uk/careers/opportunities/protective-security-development-programme-psdp>)

Go from STEM graduate to fully trained Protective Security Specialist as you learn how to protect the UK from threats most people would never consider.

Business Enablers (<https://www.mi5.gov.uk/careers/business-enablers-0>)

Our Business Enablers help keep the country safe by providing the vital services that MI5 needs to operate.
