## Part One : Background.

### The Author.

William Golding was born on September 19th, 1911 in Cornwall England. His father worked as a schoolmaster and his mother a suffragette (she campaigned militantly for women to be given the right to vote in public elections). His parents had wanted him to study science, so he did. After his second year of college however, he realised that science wasn't for him and abandoned the study of science in favor of English literature. He wrote poetry and became a teacher at the beginning of World War II, he then entered the Royal Navy and served with distinction on mine sweepers and rocket launchers.

### Background Information on the Novel

Lord of the Flies was written during the first years of the Cold War, the events arise in the context of an armed nuclear war (or threat of one). After experiencing the horrors of war during World War II, ~~the~~ Golding believed that those horrors can be based on some innate evil which he explores throughout this novel. The book depicts the descent of normal school children, after travelling far from modern civilisation, into savagery. ~~After~~ When the well-educated children regress to a primitive state, Golding explores this innate evil.

## Part Two : Analysis.

### The Setting

Lord of the Flies takes place on an uninhabited island, of which Golding gives no exact location. Although he does not tell us where the island is, he describes it in detail. It has a jungle at one end, with a rocky mountain above it. At the opposite side of the island is the lagoon where the boys first met after the crash and where they bathe throughout the novel. Near there, up the mountain, is where it was decided a fire would be lit in hope of rescue. Inland, food was plentiful in the dense jungle, and the plants serve as a means of escape (i.e. During Ralph's ~~run~~ run from Jack), it ~~is~~ also the home of the island's wildlife.

The boys' plane was shot down during the atomic war. ~~The~~ The island is a very isolated place with absolutely no contact or connection with the outside war. There is food, wildlife and fresh water. Therefore it is safe to assume that if ~~any~~ problems come the boys' way it will not be their surroundings that will be the cause, but themselves.

### The Time Period

Although no specific time period is given by Golding, it is safe to assume, based on Golding's past experiences of World War II and the imminent threat of nuclear war, that it is set before or during the Cold War and Atomic Age.

## Point of View

The story is told by an anonymous, third-person omniscient narrator, who gives us access to the characters' inner thoughts. The narrator is primarily focused on Ralph's point of view but also follows Jack's and Simon's in certain chapters.

## The Characters

✓ excellent intro ✓  
Golding uses the schoolboys to illustrate the nature of mankind. There are four main characters that depict different effects caused by the changes the boys undergo as they gradually adapt to the isolated freedom ~~from~~ from society.

- ✓ 1. Ralph starts as a self-assured boy whose ~~confidence~~ confidence in himself comes from the acceptance of the boys. He has a fair nature, and unlike most of the boys, he is willing to listen to Piggy. He becomes increasingly dependant on Piggy's wisdom and becomes lost in the confusion around him. He has the qualities of a leader, but lacks the initiative. For example, when Jack gives everyone except Piggy meat, Ralph does not say anything to Jack. Ralph is the only one who truly acknowledges the importance of being responsible, and he takes over as a leader even though he is not necessarily good at it. This sets him apart from the other boys and makes it difficult for him to realize/accept the changes they are undergoing.

2. Piggy is an educated boy who has grown up as an outcast because of his weight. Due to his academic childhood, he is more mature than the others and retains his civilised behaviour. The wisdom that he possesses is obviously greater than that of most of the other kids his age, he makes up for his lack of brawn with brains. An example of Piggy's wisdom and intellect is when he is speaking to Ralph saying, "The thing we ought to have made was shelters down there by the beach." He is able to think clearly and plan ahead with caution so that even in the freedom of their unregulated world, his wisdom and his isolation from the savage boys keeps him from giving into the evil that had so easily consumed most of the others.

3. Simon is the Christ figure in the book. He never does anything wrong in the whole novel. He was part of the choir boys, although he did not join the evil group later when the tribe split. He bears the spiritual component of man. Unlike Piggy, Simon is shy and does not speak his mind. An example of the negativity of this is that Simon thought the evil on the island was just themselves, not the beast, but he kept this to himself.

4. Jack Merridew begins as the arrogant and self-righteous leader of a choir. The freedom of the island allowed him to further develop the darker side of his ~~personality~~ personality as the Chief of the savage tribe. Jack has good leadership qualities but cannot ~~control~~ control the evil inside him. He gives out demands and expects the

group to answer him. This is what he is used to. Jack believes that no one else has the right to control him, and he should be in control of everyone. He even states "I ought to be chief." He has no respect for Piggy, due to his appearance, even though Piggy could be a very useful asset to the group. He takes control of the assemblies because he wants to decide and be in control of what the group does. This is because he is a natural leader and has never been in a position without control. When Ralph is voted as leader of the group, Jack is very embarrassed because, for the first time in his life, he is not in total control.

In short, Ralph is one of the few boys who realize that the only way to survive is through peace and order. Ralph creates a stable and peaceful society for the children to live. This bothers Jack because he wants to have fun and do things that he never did back in civilized society. Simon, on the other hand, has the spiritual guidance needed, but he is too shy to speak his mind. Piggy has the intellect and wisdom and he actually speaks what is on his mind, but is usually ignored and teased because of his appearance.

✓ good

## Part Three: The Themes.

### Civilization v Savagery

The main theme of Lord of the Flies is the conflict between the human impulse towards savagery and the rules of civilisation which basically contains and minimizes that impulse. Civilisation is represented by Ralph and savagery by Jack throughout the novel. The different ideologies are expressed by the boys' distinct attitudes towards authority. Ralph uses his authority to establish rules and enforce the morals of their society back home, while Jack is interested in gaining power over the other boys. When Jack assumes leadership of his own tribe, the boys do not only do whatever he demands, but they also worship him as an idol. Ralph is the protagonist who represents order and leadership. Jack is the antagonist who represents savagery and the desire for power.

As the novel progresses, Golding shows how the instincts of civilization and savagery influence people differently. For instance, Piggy has no savage feelings, whereas Roger seems barely capable of comprehending the rules of civilization.

It seems implied by Golding, that people would naturally revert to savagery, cruelty and barbarism if left to their own devices, rather than the moral behaviour of civilization. The idea of this innate evil is central to Lord of the Flies. Among all the characters, only Simon seems to possess anything close to a natural, innate goodness.

## The plot

The story begins by introducing Ralph and Piggy. Ralph takes it upon himself to group up all the survivors of the crash, he uses the conch to call them to the beach. All the boys unite, and Ralph is elected Chief, despite Jack's experience as leader of the choir. Ralph's objective throughout the novel ~~remains~~ is to protect and work for the good of the tribe, especially the littluns who don't have much say.

Despite Ralph's best efforts to keep peace on the island, Jack's jealousy and thirst for power causes a problems throughout the novel. Jack causes a numerous rift in the tribe, offering the boys who join his side a chance to hunt and dance. The boys find these offers more appealing than those offered by Ralph.

The boys join Jack and they descend into savagery. Ralph and a few others still cling on to their civilized ideas, yet all their efforts to convince the other boys fail.

Will someone be able to save the boys, before they destroy themselves?

✓ excellent

10

## Good v Evil

During the abandonment on the island, Ralph, Simon, Piggy and many of the other boys show elements of good in their characters. Yet all of these characters ultimately fall victim to the forces of evil, as represented by the cruelties of the hunters, especially Jack and Roger.

Piggy loses his glasses, and thus the power to make fire. ~~This~~ This power, when controlled by the forces of good is a powerful tool for the boys: it warms the boys, cooks their food, and provides smoke for the rescue signals in hope for survival. But in the hands of those less skilled and knowledgeable, the fire becomes an agent of destruction. First unintentionally of those ignorant of its power, the purposefully when Jack and the hunters use it to smoke out and destroy their opponents. It is Simon's bad luck to stumble upon the ritual group of boys with news about "the man on the hill", just as the group's ritual pig hunt reaches its climax. Simon's ritual killing, to which Ralph and Piggy are complicit witnesses ~~is~~, is perhaps the decisive blow between good and evil. Later Piggy loses his life at in the battle the hand of the almost completely evil Roger.

Without Piggy's glasses and wise counsel and Simon's steadfastness, Ralph is greatly weakened and to survive he must ultimately be rescued by adult society. Ironically, the fire that warns adults of their presence on the island was originally created by Jack to destroy Ralph's hiding place.

## Part Four:

### Symbolism

Golding uses the boys' lives on the island to represent a world-wide. It is not clear why it is set on the island, but it was probably best to have the characters isolated, left to their own devices. Golding chooses children instead of adults, most likely because children have not yet been conditioned by society to know right from wrong. Golding uses symbolism through these characters and important objects on the island to display his belief of the nature of mankind. Here are a few examples:

#### Ralph, Piggy, Jack, Simon and Roger.

Lord of the Flies is an allegorical novel, and Golding uses many of the characters to signify important ideas/themes. Ralph represents order, leadership, and civilisation. Piggy represents the scientific and intellectual aspects of civilization. Jack represents unbridled savagery and desire for power. Simon represents natural human goodness. Roger represents brutality and bloodlust. The relationships that develop between the older boys and the Littluns emphasize the older boys' connection with civilized/savage instincts. Civilized boys like Ralph and Simon use their power to protect the younger boys and for the good of the group, savage boys like Jack and Roger use their power for their own needs and desires, treating the Littluns as objects there for their amusement.

## The Conch Shell

When Ralph and Piggy use the conch shell to summon all the boys together at the beginning of the novel, it becomes a symbol of civilization and order. As the power of civilization lessens on the island as the boys descend into savagery, the conch shell loses its influence and power among them. When Ralph tries to use the conch shell to call a meeting in Jack's camp, he gets stones thrown at him by the other boys. The boulder that rolls onto Piggy also cracks the conch shell, signifying the end of the civilized instinct among almost all the boys.

## Piggy's Glasses

Piggy is the most intellectual, rational boy in the group. His glasses represent the power of science and intellect in society. The symbolic reference is clear from when the boys use his glasses to focus the sunlight and start a fire. When Jack's hunters raid Ralph's camp and steal the glasses, they effectively take the power to make fire, leaving Ralph's group helpless.

## Part Five: Personal Response

Throughout this novel Golding explores the innate evil in us all. I really admire his use of technique. Each of the main characters represent an important quality of man society. Ralph represents order, leadership and civilization, Piggy represents scientific and intellectual aspects, Simon represents natural human goodness and Jack represents the inner savagery and thirst for power in us all.

When Ralph, Piggy and Simon work together they survive. But when Simon dies it all falls apart. This symbolises that the order, leadership, intellectual and natural goodness qualities of man are equally important.

Golding expressed the innate evil well, Jack is a great example of this. He represents what we all would do, if we lacked self-control, natural goodness, and responsibility, and thus emphasises the importance of these qualities.

I feel that this novel is very relevant to the modern world, I believe ~~it would~~ the same events would occur if society had not melded us in such an exact way.

The book made quite an impression on me. I have a new view of the world and a better understanding of other people's actions.

Le Cian Mac Liatháin

## An Córas Chiarláthas

Tagann an focal 'ciarláthas' (conclave) ó na focail laidíneach 'cum'(le) agus 'clavis' (eochar), 'áit a féidir a bheith slán dúnta'.

Seo é an seomra/halla dúnta a mbíonn curtha ar leath taobh agus ullmhaithe i gcomhair na cardinéil agus iad ag toghadh pápa nua, go hiondúil tar éis an ceann deireanach bás a fháil. De ghnáth bíonn sé 15 lá tar éis bás an pápa deireanach, ach is féidir le na chardinéil é a chur ar fionraí suas go dtí an 20ú lá tar éis an bású.

Bíonn na Chiarláthais ar siúl sa Séipéal Sistíneach faoi láthair.

Tagann comharthaí deathacha ón séipéal a thaispeánann na torthaí den vótáil don luch féachanna taobh amuigh den séipéal. Ciallaíonn deatach dubh nach bhfuil cinneadh déanta fós agus ciallaíonn deatach bán go bhfuil pápa nua roghnaithe acu!

## *An Eaglais Ceartchreidmheach*

Is é an Eaglais Ceartchreidmheach an dara grúpa is mó Críostaíochta ar domhan, le timpeall 225-300 miliúin daoine mar bhaill dó.

Creideann an Eaglais Ceartchreidmheach go bhfuil príomh-sprioc gach Críostaí ná chun a bheith mar Dia, chun fíorghrá a bheith agat agus chun a bheith mar Íosaí beaga isteach in Íosa Chríost.

Is sa 11ú aois, i rith an Schism Mór, a scair an Eaglais Ceartchreidmheach (Oirthear) agus an Eaglais Caitliceach-Rómháineach óna chéile.

Creideann an Eaglais Ceartchreidmheach go ndeachaigh Íosa Chríost shíos go Hell nuair a bhfuair sé bás, agus go ndearna sé shábháil ar gach duine shíos ann, d'ais-eirí sé agus dá bharr rinne sé shábháil ar chuile dhuine ar domhan.

## An Eaglais Protastúnach

16<sup>ú</sup>  
Bunaíodh an Eaglais Protastúnach sa 14ú aois, i rith an Reifirméisean Protastúnach. Tagann an focal 'Protestant' ón focal laidíneach 'protestari' a ciallaíonn 'publicly declare', agus tá baint aige seo le na 95 Theses a chuir Martin Luther ar an doras den (Castle) Church i Wittenburg, a chuir tús leis an reifirméisean.

### Caitliceach

Ceann de na difríochtaí is mó idir an Eaglais Caitliceach agus Protastúnach ná na rudaí a leanann siad. Ní leanann na Protastúnaigh an Pápa, nó gnáth daoine ar domhain ar cura bith. Is é an Bíobla an príomh-<sup>GAIDARAS</sup>'authority' atá acu.

### Protastúnach

Go hiondúil glaotar Protastúnaigh ar Críostaí nach bhfuil mar bhaill den Eaglais Caitliceach nó Ceartchreidmheach ach tá go leor grúpaí ar nós na Mormans agus Jehova's Witnesses nach aontaíonn le creideamh na Protastúnaigh ar cura bith.

# Struchtúir an Eaglais

## Ceartchreideamh

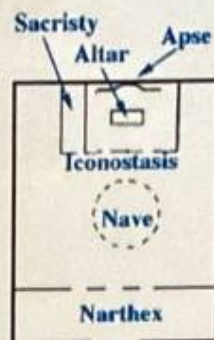

Seo gnáth struchtúir d'eaglais

Ceartchreidmheach. Bíonn an congregation

go hiondúil sa Nave, faoi dóm ina bhfuil pictiúr d'Íosa

Chríost. Má tá easpag i láthair suíonn sé san Apse ar chúl.

Bíonn Iconostasis idir an Nave agus an Altar, áit ina mbíonn icons éagsúla.

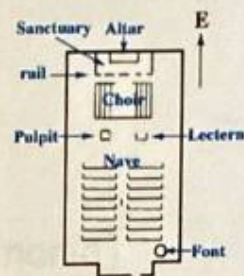

## Caitliceach

Seo gnáth-struchtúir d'eaglais Caitliceach.

Bíonn an Altar go hiondúil in aice leis an mballa

ar chúl. In áit Iconostasis bíonn rála a scaireann

na clergy timpeall an Altar agus an congregation sa Nave.

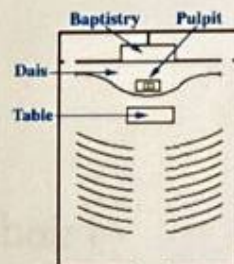

Seo imithe ó  
VATICAN II  
(1962-65)

## Protastúnach

Go hiondúil bíonn Bíobla mór ar an Pulpit, os comhair

an Pulpit bíonn an "Lord's Table". Cuireann an

struchtúir seo an-bhéim ar preaching.

## Siombail Beannaithe

### An Tau Cross

Tá sé ainmnithe tar éis an litir 'X' san Ailgéabar Hebrew, a deirtear mar 'Taw'.

### An Cross Laidineach

Fiú go raibh an cross laidineach (crux ordinaria) úsáidte mar siombail paganach i bhfad roimh a bunaíodh an Críostaíocht, is ceann de na siombail is coitianta é.

### Ichtyus

Tagann an focal Ichtyus ó na céad litireacha san abairt '*Iesous Christos Theou Yios Soter*', a ciallaíonn '*Jesus Christ, Son of God, Saviour*'.

# Siombailí Eanála

An Craoi

Tá sé a'fhreagairt leis an litir 'X' san Ailgeobhar  
Hebrea, a b'fhearr mar 'Taw'.

An Craoi Laidineach

B'fuair na ríoch an craoi laideach (craoi ordinarra)  
úsáidte mar shiombail pagánaigh i bhfad roimh a  
bunúchán an Chríostólaigh, is eann de na siombailí a  
b'fhearr mar 'Taw'.

### Caibidil 9: Uimhríocht

**Garmheastachán** (Approximation): tomhas garbh, gan gealltanais go bhfuil sé iomlán cruinn.

Uaireanta is féidir le garmheastachán a bheith mar an gcéanna leis an luach cruinn. Ach má tá difríocht eatarthu, tugtar an **earráid** (error) ar seo:

$$\text{Earráid} = |\text{Fíorluach} - \text{Garmheastachán}|$$

$$\text{Earráid Coibhneasta} = \frac{\text{Earráid}}{\text{Fíorluach}}$$

m.sh. bosca Smarties

Is garmheastacháin iad na toisí atá faighte le huirlis tomhais ar bith (m.sh. rialóir, cailpéar Vernier, sorcóir grádaithe), mar gheall go bhfuil **cruinneas** faoi leith ag gach uirlis tomhais.

**Cruinneas:** tugann sé fios duit cé chomh ghar agus a bhfuil do thomhais don fhíorluach. Seo an t-aonad is lú a thomhaiseann uirlis. (m.sh. tá cruinneas 1mm ag gnáth-rialóir agus 0.1mm ag cailpéar Vernier)

Ag braith ar an gcruinneas, tá '**tolerance interval**' ag gach uirlis. Seo an raon luach thar nó faoi an fíorluach gur féidir glacadh leis m.sh. meáigh airgead

Cruinneas an scála:

Tolerance interval:

| Airgead | Fíorluach (g) | Garmheastachán (g) | Earráid | Earráid Coibhneasta | % Earráid |
|---------|---------------|--------------------|---------|---------------------|-----------|
