Summary of Duties | Achoimre ar Dhualgais

Responsible for bug fixes and feature work for the DNS web filtering product WebTitan. • Conducted a thorough investigation on the implementation of DNSSEC and DNS-over-HTTPS and documented the end-to-end process for building and deploying it. Automatically enabled this upon initial deployment of new clusters and created a hot-fix to enable it on previously provisioned WebTitan (C / C++) cloud servers. Presented findings and progress to the company. • Solved issues related to the company's Windows endpoint and active directory agents. • Solved issues related to the dynamic IP agent installer using WiX Toolset and Orca, creating an adaptable installer with included pre-requisites such as .NET 4.0 that vary dependent on local installation environment. • Gained familiarity with a PHP/Laravel codebase; Amazon Web Services, Docker and Kubernetes deployments; testing and the CI/CD pipeline (GitLab); working in a Scrum/Agile environment; using appropriate Linux, Git and Bash commands.
