

Curaleaf Clinic: Update on your enquiry

From: Curaleaf Clinic appointments@curaleafclinic.com

To: cianmacliathain@gmail.com

Date: Sat 16 Mar 2024, 10:01

Dear cian,

We're just updating you on the status of your enquiry for treatment with Curaleaf Clinic.

We have not received the necessary information to proceed with your assessment. We require the details of your (or the patient's if you are their carer) Summary of Care Record (England, Wales and Northern Ireland) / Emergency Care Record (Scotland). We need this document to evaluate whether you could potentially benefit from treatment with medical cannabis.

We haven't received this from you yet, so please either log into your Curaleaf Clinic web app account [here](#) and upload it there or send it through at your earliest convenience to patientsupport@curaleafclinic.com. The sooner you send this to us the sooner we can triage your case and if appropriate invite you to book an appointment.

How to access your medical history from your GP (Summary Care Record / Emergency Care Summary)

Your health records, stored in a Summary Care Records (SCR), also known as an Emergency Care Summary in Scotland, contain information about you and the care you receive. At Curaleaf Clinic, we require care records for all new patients along with any clinic letters. For more information please visit <https://www.curaleafclinic.com/access-your-medical-history/>

The easiest way for you to get your healthcare record to us is by downloading your own record from the NHS website or app (this may not be possible in all areas of the UK). Any data from the NHS app should be provided in a PDF format or screenshots if using the app.

If you have the NHS app please view this video for how to view your healthcare record and send it to us <https://youtu.be/LQomAkgPGSI>

If you do not have the NHS app please view this video for how to download the NHS app
<https://www.youtube.com/watch?v=Q0SCcLtw8JA>

Alternatively, you can telephone your GP practice and request that the medical secretary sends this information via email to patientsupport@curaleafclinic.com or to you where you can then upload it through the web app.

BUCKINGHAM PALACE

Private and confidential

25th September, 2025

Dear Mr. Lyons,

The King has asked me to express his gratitude to you for your thoughtful messages, with which you so generously enclosed gifts of books.

His Majesty greatly appreciates you taking the trouble to write as you did, and was touched that you so courageously shared with Their Majesties a little about your personal challenges. As Duchess of Cornwall, The Queen became Patron of *SafeLives*, a charity dedicated to end domestic abuse. Her Majesty remains actively involved with campaigners and survivors of domestic abuse via her patronage, and I have been asked to share with you the following website: www.safelives.org.uk, if you wish to access resources or find a local Marac practitioner. As we are unable to accept unsolicited gifts, and due to its sentimental value, I am returning to you your family bible and photographs for safekeeping. Please rest assured that your kind gesture was most appreciated.

Along with The Queen, The King was heartened to learn that you have found solace in London, and has asked me to pass on their warmest good wishes for your future endeavours.

Yours sincerely,

Head of Royal Correspondence

Mr. Cian Lyons

Hi Charlotte,

Sorry for my delay, I was busy trying to find a longterm place to rent here in London :)

1. 10/02/1993

2. I am hoping to book an initial consultation with Dr Deirdre MacManus someone whose extensive history and qualifications in treating Complex Post-Traumatic Stress Disorder is what I feel I need.

3. I suffer in varying degrees with many of the symptoms outlined in Pete Walker's CPTSD: From Surviving to Thriving - emotional flashbacks, tyrannical self-critic, very heightened fight/flight/freeze/fawn responses. I was diagnosed with Anxiety Disorder and Post-Traumatic Stress Disorder by a psychiatrist through my old University's Counselling and Student Health Unit in September 2017 following years of counselling there. I have been in receipt of Disability

Allowance in Ireland for PTSD from 2017 until moving here.

Since 2017, however, I have been the victim of domestic violence at the hands of family members and been hospitalised multiple times based. That inpatient psychiatrist who knew one of my primary abusers before me gave 0 weight to any possible trauma despite evidence of such and diagnosed me with bipolar affective disorder something which I refute. I was last hospitalised from September 2024 to January 2025. I then recovered happily with my grandmother until June 2025, when I was then assaulted by two different family members and had to leave my family home in Galway where I am from for fear of my safety.

I am no longer under that psychiatric team's care, nor in contact with my family (as much as I and my Nan would love to be in touch 😞)

I received the exact opposite of trauma-informed care and it has hurt my ability to self-manage my Complex Post-Traumatic Stress Disorder in the way I once felt I could.

That entire experience as an involuntary patient was very traumatic in itself, alongside the childhood and now adult history of physically and mentally abusive experiences at the hands of family members... it is very important for me to try and independently find a trauma-informed psychiatrist to help me best heal. The childhood, domestic, and involuntary nature of the trauma has effected my core identity and anxiety in a way I feel is parallel to Dr MacManus' expertise dealing with male prisoners.

I am currently voluntarily prescribed 25-75mg a day Seroquel to help with sleep at night, if needed. This helped me recover from the stress of being assaulted and made homeless, but it's not something I need to take currently.

I am managing my sleep and anxiety fine without it but still experience intense emotional flashbacks that need to be verbally expressed and hopefully treated by someone much more expert in that than me!

I have no feelings of self-harm or suicide etc.

Hi Charlotte,

Thanks for your response!

I'm renting now in Islington N7 0LU

I'm not currently receiving any mental health treatment, I have my prescription from my Irish GP at the moment

I would be happy to wait until she is available, or perhaps you can recommend others that specialise in Complex Post-Traumatic Stress Disorder and trauma-informed care

Thanks for your time,
Cian

Dear Cian

Many thanks for your patience whilst I have been checking with Dr MacManus. Please would you kindly advise on the following:

- Where are you living currently?
- Are you receiving mental health treatment currently? If so, please provide further details and any available clinic/psychiatry letters

Dr MacManus has advised that she will likely be unavailable until early next year. Please let me know if you would be happy to consider alternative clinicians with sooner availability. Many thanks.

Dear Cian

Many thanks for your patience whilst I have been checking with Dr MacManus.

Unfortunately, Dr MacManus does not have the capacity to see patients with complex presentations currently so would not be able to see you. I apologise for any inconvenience this may cause.

I am in the process of checking with alternative clinicians who also specialise in C-PTSD, I do hope that is ok.

Given the level of support and ongoing monitoring that would be required to ensure your safety and wellbeing, it would not be appropriate or safe to have only one or two appointments. Ongoing follow-up care would be essential. With this in mind, may I kindly ask whether you would be happy to proceed on this basis? Follow-up appointments are charged pro-rata at our clinicians' hourly rate (£580–£595), so this would represent a significant financial commitment. Your confirmation will help us determine the most appropriate next steps and ensure you receive the right level of support.

I look forward to hearing from you.

Hi Charlotte,

Okay that's unfortunate, thanks for checking if Dr MacManus could be available.

Thanks for clarifying the expected consistent cost. Following my previous experience, I don't see any alternative other than committing to finding the best suited psychiatrist privately. Regardless of waiting for quite long time, similar to Ireland, going through the NHS wouldn't really allow me to find a specific psychiatrist specialising in CPTSD/trauma-informed care.

I'm happy to proceed and wait to see if you might have other options of that kind of psychiatrist with availability.

Thanks for your ime,

Cian

Hi I am the victim of severe domestic abuse where I hail from in Galway, Connaught (mentally, emotionally, physically, sexually) and unfortunately again after signing a lease in a shared flat here (mentally and emotionally) in Islington N70LU

These instances of domestic abuse have severely effected my previous high ability of work (teaching and software development) and I am sturggling to pay for things or get back on my feet.

I have recently discussed with Housing Option Team - Islington Customer Centre, 222 Upper Street, London, N1 1XR about help disputing an illegal eviction (where my landlord claims my Assured Shorthold Tenancy is actually a lodging agreement and I therefore have no protection) and they have asked for further details but this for example is difficult for me to do I have £0.10 and need to print things and have been struggling to eat.

I am grateful for the 'We Are Islington' helpline who have given me reference number E59931-017723 to collect food like rice from them this Saturday at 2:30pm

I have attached some information with regards to my disability, previous injuries sustained due to the domestic violence at home, and evidence of very little money.

An English flatmate I live with in Islington and the Greek landlord have both treated me badly in a prejudiced manner with regards to my ethnicity (Irish Traveller), disability (Complex Post-Traumatic Stress Disorder (due to childhood abuse, domestic abuse as an adult and the palliative care of my grandfather) and TBI (primarily due to sodium valproate causing intermittent migraines and zaps/flinches in my brain). I researched what the burden of evidence / effects of a Hate Crime were on cps.gov.uk and they were committing a Hate Crime. After reporting to the police the police arrived and instead took the other 2 at their word, I was brought to North Middlesex Hospital and given a full clean bill of mental health and discharged back to police custody, as the police claimed that supplements like Emoxypine Succinate (a legal neuroprotective supplement to help with brain injury) 'might be a Class A' drug (despite my blood being taken at North Middlesex and no drugs found) and then after locking me in a jail cell for 10+ hours they Sectioned me for 'assessment'. I was in Highgate Mental facility for 13 of the 28 days assessment before being discharged, and was not required to take any medication (benzodiazapines or antipsychotics) during my stay or upon discharge - the psychiatrist there said he found no evidence I was 'imagining voices' which is what my landlord and housemate falsely claimed, as I had disclosed my disability of CPTSD to them and they begun speaking to me and insulting me through the very thin shared wall (criticising my accent, commenting on my Irish nationality, mocking my disability, claiming I was not allowed speak in my room using speech-to-text or use the phone). Following my discharge and further agressive WhatsApp messages to me by the landlord and tenant, the landlord retaliatory evicted me for asking for help (none of the details in the attached termination notice are true).

I have submitted relevant Subject Access Requests for that, but again am not defending against any charges or being forced on psychiatric medication but the entire ordeal effected my sense of safety, comfort, ability to earn income and feel safe.

I have been trying my best to recover and am trying to follow the advice found on the letter attached to me (believe it or not (I barely do) from Buckingham Palace) when I go to safelives.org.uk I am unsure of what to do next, I don't think I can contact a Marac practitioner directly like the letter says? I amn't sure which charities to contact or anything like that

I would appreciate any help please as I am so hungry and tired and just want to teach and program again. Thanks for your time.

BUCKINGHAM PALACE

Private and confidential

25th September, 2025

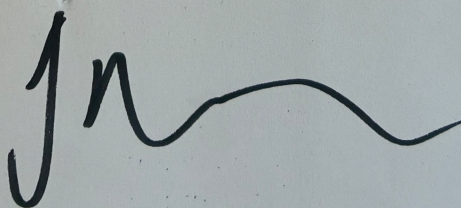

Dear Mr. Lyons,

The King has asked me to express his gratitude to you for your thoughtful messages, with which you so generously enclosed gifts of books.

His Majesty greatly appreciates you taking the trouble to write as you did, and was touched that you so courageously shared with Their Majesties a little about your personal challenges. As Duchess of Cornwall, The Queen became Patron of *SafeLives*, a charity dedicated to end domestic abuse. Her Majesty remains actively involved with campaigners and survivors of domestic abuse via her patronage, and I have been asked to share with you the following website: www.safelives.org.uk, if you wish to access resources or find a local Marac practitioner. As we are unable to accept unsolicited gifts, and due to its sentimental value, I am returning to you your family bible and photographs for safekeeping. Please rest assured that your kind gesture was most appreciated.

Along with The Queen, The King was heartened to learn that you have found solace in London, and has asked me to pass on their warmest good wishes for your future endeavours.

Yours sincerely,

Thanks for your reply and very useful information in some aspects but I amn't sure if Islington Adult Social Care is relevant for me as I am fully independent I amn't on any psychiatric medication my disability doesn't hinder me in that way

What hinders me is ongoing domestic abuse against a male and was wondering what charities then I can contact with regards to male victims that are linked with Safe Lives?

The website says find a local MARAC practitioner but the number for Islington and the email for Islington doesn't work?

I was advised to apply for the Circle Fund but the number on the website doesn't go to anything about it

I need a low amount of emergency funding to survive as advised in that Buckingham Palace Letter - they speak highly of the resources you provide yet you refuse then to help? A severe abuse victim? Is it because I am male?

I sent you important information that should not have been dismissed without being discussed just to put the burden of evidence back on me

How is it you refuse to help someone who was referred to you by Her Majesty herself?

She advised a Marac Iractitioner and the Circle Fund, I asked for help and Adult Social Care insinuating my disability requires a carer is inappropriate

I was referred to you on 25th of September 2025, how do I access direct male suport, a Marac practition and the Circle Fund?

Hi Cian,

Thank you getting in touch with regards to the Circle Fund and I am sorry to hear of your experiences of abuse.

How the Circle Fund works is that we give small grants directly to organisations who then work with survivors; we do not have access to funds here at SafeLives. If it is safe to do so, you can send me your postcode and I will see if we have any locally funded organisations that we could refer you on to.

Best wishes,

Jen Douglas
