Dear Cian,

Thank you for taking the time to apply to the MGO programme.

We truly appreciate the effort you put into your application.

Please be advised that because as you have successfully completed the Bachelor of Arts in Mathematics & Education you already hold a teaching qualification and are qualified to teach Mathematics and Applied Mathematics at post-primary school level.

The MGO is an Initial Teacher Education Programme and you do not meet the criteria as an Initial Teacher Education candidate (as you are already a qualified second-level teacher).

For the above reason, your application must be declined.

If you have any questions please do reach out to artsadmissions@universityofgalway.ie.

Kindest regards,

Arts Admissions

I am not fully qualified, I am a newly qualified teacher not a fully qualified teacher.

I am not qualified to teach in the Irish language, this course's primary purpose is to teach in through the medium of Irish which I am not qualified to do.

I applied for the Máistreacht san Oideachas (Gairmiúil) which I fully qualify for and cannot be precluded from being offered a place by virtue of an English speaking degree there is no other way to qualify to teach in Irish-language schools like m'iarscoil Coláiste na Coiribe, Gaillimh.

I submitted a response to you already outlining how your refusal of my course offer based on the fact that I am only a newly qualified teacher with an English only speaking degree that graduated in 2021 is contrary to the teaching council guidelines on disabled people or those unemployed that require retraining especially in this only unique course of its kind which is now describes you as an initial teacher training program but on its own website outlines how it's important for anyone specifically trying to get into the Irish speaking domain of education which is impossible to do for me without this course, which is something that was outlined to you and it has not been outlined in your refusal why I am not correct. I submitted an email request requesting an appeal that was last week and I haven't seem to have received any response is my appeal being processed please?

I have reattached the evidence alongside the disability that I was diagnosed with by this university of which your flat out refusal without proper reference to the content of my message or my application severely is exacerbated the same anxiety and complex post-traumatic stress disorder that was once helped by your student counselling unit and my disability advisor and one that you haven't taken into your account at all but it was mentioned in my attached PDF which was also in my application outlining why for reasons of my right to speak the Irish language for reasons of reemployment and for reasons of disability you have no right to refuse me on this course because of a bachelors that I needed as a prerequisite of the course because I can't do a masters without

the prerequisite that I graduated from 2021 I also then had to spend time focusing on getting a postgraduate degree to help me qualify for this course none of the above should be precluding me from this course and you haven't actually given a reason you have just stated because I have an English speaking degree I am applying for an Irish speaking course what does my English speaking qualification which is not a full teaching qualification? As you have stated it's an NQT qualification it has conditions that I cannot fulfil because I got my degree 2021 thus I cannot be a teacher but you haven't quite outlined what regulations you're following from the teaching council that say that I am precluded from ever being qualified as an Irish speaking teacher, because I have an English speaking degree.

I have not received acknowledgement of receipt of my appeal after submitting it on March 26th.

Nowhere has any weight been given to my inability to complete Droichead conditions due to disability and qualifying as NQT in 2021, nor to my lack of teaching experience to qualify in the Irish language.

To ban every BME graduate from the MGO without informing them in advance that the BME is the only undergraduate degree that cannot subsequently qualify to teach in Irish is not the standard of education or logic typically found within the Áras de Brún or the School of Education.

This refusal by the MGO as outlined below and the ignoring of my appeal or logic of my appeal makes no sense.

As a School of Education, you know as well as any first-class honours graduate of the BME like myself and my peers that I cannot be blocked from the MGO because of my 2021 BME and NQT status. Leaving me in permanent limbo and inability to teach while Anthony Hall, Kathy O'Sullivan and Cornelia Connolly at the same time ILLEGALLY revoke previous academic references based on HEARSAY. You know well that is educational malpractice wtf?

Anyway doing my MSc in AI in September instead. You need to be further reminded how we are peers? You misremember me.

I deserve an MGO course. I don't deserve the hatred given to me by students of campus claiming I am a fake mathematician I am a fake teacher. My father was abusive my brother was abusive you all mock me in breach of the Equal Status Act in their name. The mockery is you PRETENDING I don't understand YOUR obligations.

Seán Ó Grádaigh hated me ever since I asked him to be my critical friend back when my old peer Máire Ní Ríordáin was in charge. He left me on read, and didn't like when I brought that up again.

He has no right to refuse a disabled NQT who cant even get a reference for their BME from the MGO, and you should understand that. As outlined here. If you don't understand that, your careers will be brought into the court of public opinion eventually.

You were incorrect to treat me as such and I have proven that extensively. Me suffering from a BRAIN INJURY and left for dead in Belfast isn't whatever you haven't quite accused me of to my face. You were meant to be UNBIASED, and were meant to treat me based on my MERITS and DISABILITY but you failed to.

I have the right to proceed in my civil suit down the line when I next need to apply to the MGO against Ciara Meehan and Seán Ó Grádaigh, I have the right to be remembered for my history at the School of Education that predates most of you.

Anthony Hall in particular should know the difficulty I might be having caring for my grandmother if he could bother to recall why he gave me an extension in 2014
