I rith an tsamhraidh 2019 (is dóigh liom, níl cinnte faoin bhliain) bhí mé cláraithe mar scoláire NUIG agus cláraithe leis an Disability Office chomh maith – is point tábhachtach é sin.

Ag Áras Uí Chathail, d'iarr fear slandáil orm ID a thaispeáint dó agus thaispeáin mé dó é. Míor léirigh sé fadhb ar bith liom. D'fhág mé ar mo bhealach go dtí Corrib Village áit a bhí mé i mo chónaí mar duine gan dídean i gcomhair le COPE Gaillimh.

Leandadh mé ar aghaidh go dtí an foirgneamh innealtóireacht gan chúis a thabhairt dom cén fáth go raibh fear slandáil á mo leanúint, ní raibh fáth dleathúil ar bith aige.

Bheartaigh mé go mhothóinn níos sábhailte san fhoirgneamh innealtóireacht sa leithreas do dhaoine faoi mhíchumas, in ionad m'áit codalta a thaispeáint go fear ait á mo leanúint. Leithreas a bhí iomlán cead agam dul ar fáthanna bainteach le mo mhíchumas (mar a bhí léirithe agam trí m'ID agus uimhir micléinn a thaispeáint ag Áras Uí Chathail), chun príobháideachas/sábháilteacht/faoiseamh a fháil ón tart agus scanradh a bhí orm, gan phingín rua i mo phóca, tar éis fear ait a bheith á mo leanúint leis an ngrian ag scoltadh na gcloch. Iomlán cláraithe mar mac léinn le michumas, chuaigh mé go dtí an leithread michumais is compordach dom san fhoirgneamh ina thosaigh mé mo thaithí in NUIG.

Conas, go tobann, go raibh Gardaí á mo ghortú ann agus damáiste déanta acu don leithreas? Cén chúis agus míniú atá ar seo? Ní mise a ghlaigh iad, agus níor míniú tada dom seachas go raibh GÁ orm imeacht as an leithreas agus foirgneamh gan fáth a thabhairt. Bhí cearta agam mar mac léinn agus mar saoránach Éireannach agus briseadh mo heart.

An bhuil eolas faoi na heachtraí seo ar fáil dom trí iarratas GDPR nó a leithead? Tuilleadh eolais uaim, go háirithe más rud go gceapter go bhfuil ciontach orm.

Tá fadhb ollmhór agam leis na bealaí gur ghortaíodh mé an lá sin, agus ó shin de bharr gaslighting agus easpa freagairt. Tá michumas orm agus ní hé an Béarla mo phríomhtheanga.

Mhottaigh mé sábhailte ar an gcampas go dtí sin, cén luach atá ar sin, agus cén fáth go bhfuil seans mór ann go ndéanfar iarracht anois an míleán a chur orm go mícheart?

Hi Gerry,

Honestly, I don't know if you've been out of office this week, I've received no reply - how would I know?

My name is Cian Mac Liatháin, student ID: 11476078

You may remember me from such forced office meetings as that time where we last spoke in person, and Cornelia Connolly in her honesty and virtue pushed me to complete my degree.

I require, as stated in my last two emails, an academic reference, from the School of Education where I have since graduated.

I require it from my respected overseer, he who oversaw my graduation, and advised me of my last chance year.

Thanks for your support, Gerry.

Can I use your name and email for a reference in relation to that previously mentioned Master's of Education with Trinity College Dublin?

Mise le meas,
Cian

requested by the School of Education of Coláiste na Tríonóide? I would require a name/email to send the link to, if the reference from the educational charity Tech Steps / Corrib Kids Coding + Dr Barrett is not sufficient. Or have I mistaken all the positive feedback I've received in the past? This email has only been sent after being denied a reference from two lecturers of Education, for no appropriate reason. Níor tháinig meath ar mo chuid oibre thar ama, ar tháinig? I most certainly do not think I've carried out amazing research or made significant contributions to the education system (yet), but I most certainly do believe I have earned a reference. Do you not agree? Is this M. Oid not perfectly suited for me to develop software to improve gaeiloideachas na tíre seo? Why would lecturers of education who I previously impressed deny me that opportunity?

Apologies to those CCed who feel this ríomhphost is irrelevant to them, the few Kilobytes of data sent to you is easily deleted, and is only sent to keep you informed of the activity of a student you previously might have respected - and with whom you may have to interact with again in the future... as this córas oideachais of ours is not going to improve itself, an bhfuil sé? Agus ag cé eile atá na scileanna cuí Gaeilge +

Múinteoireachta + Ríomheolaíochta acu le roinnt? 😊

Mise le meas agus ádh, mar atá tuillte agaibh ar fad,

anyway, in a way that I imagine they wanted to hear. The truth of my life circumstances, and the upbringing of myself and my younger siblings, is far too complex at times for me to convey accurately. Especially since I doubt any of you have ever heard of the three books I mentioned above. (If you don't understand how prevalent Complex Post Traumatic Stress Disorder can be in students of all ages, you are doing them a disservice as educators, díreach mar eolas daoibh)

I do know, however, that throughout my time as a student of Scoil Iognáid + Coláiste na Coiribe + Ollscoil na Gaillimhe, and as student-teacher of Scoil Iognáid + Coláiste Iognáid + Galway Community College + Ollscoil na Gaillimhe that I have earned the benefit of the doubt based on my virtues, merits, and character.. and have never rightfully lost it, despite it being taken from me. I have been a student of NUIG since 2011, and the BME from 2013-2021, why is it that I am being treated like a stranger? I would not have survived this time period if not for the support I received from you kind-hearted lecturers, who I have always and will always continue to look up to.

It took me a long time to achieve my BME, and I am left with a very good understanding of not only the Irish education system but also the moral obligations that come with the role of a teacher or lecturer. Am I wrong to think that any lecturer of education, especially, should be capable of giving an unbiased academic reference?

Gabh mo leithscéal go mbíonn mo chuid focal Béarla léite mícheart uaireanta, seans go bhfuil siad ró-ghéar, táim fós ag deisiú agus beidh mé i gcónaí faoi míchumas. Dá scríobhfann go hiomlán as Gaeilge, ar bhealach níos nádúrtha dom féin, táim cinnte go gcuirfeadh sin an léitheoir ag mothú cosantach - mar is gnách le húsáid na Gaeilge.

I am relieved Dr Enda Barrett has submitted a reference for me, but that is related to my Higher Diploma in Software Design & Development. He need not have, I don't know him very well... but I'd like to thank him also for asking me to attend the graduation. Attending my own graduation is something I doubt I will ever be capable of, a damaged sense of self-worth is a core aspect of CPTSD - I will never feel of value, and a graduation will never feel anything but uncomfortable. Especially, but not exclusively, since my Grandad cannot be present.

I've interacted more closely with every single educator CCed here, than with Dr Barrett, who has given me a reference as part of my application to the Máistreacht luaite thuas. I would imagine, from Trinity's point of view, that I would be expected to have an academic reference from the School of Education as their M. Oid san Oideachas Lán-Ghaeilge agus Gaeltachta is available only to those already qualified as a teacher - and I have since focused on developing my computer science skills to qualify to teach computer science but mainly to develop software for the education system, instead of rushing through completing Droichead. I can not improve the education system in the ways I would like to from the top of a classroom.

Dr Mac Ruairc, when you have time, can you please check if any of my past lecturers of Education are willing to give me an academic reference, if

Knowing that I am very patient and very forgiving, they know that in the end it is very unlikely I would defend myself legally as it would result in them receiving a criminal record and effect the stability/comfort of my younger siblings. I am still fully Garda Vetted, and have recently received a clean Police Certificate if my word has lost absolutely lost all value to you and you expect me to provide evidence alongside it?

I did owe, and already gave, Dr Cornelia Connolly, Dr Ian Fleming, Dr Niamh Flynn, Máistreas Caitríonna Nic Dhonncha, Máistreas Móirín Nic Fhlannchadha an apology for emails sent / previous behaviour around the time of February 2023 and others, when I was yet again forced on neuroleptics against my will by some family members' use of coercive control against me. Any 'erratic' behaviour you deem me guilty of is/was related to horrible chemical brain damage inflicted upon me, and the resulting recovery of such. If you skim the work Dr John Read's Models of Madness (and Pete Walker's CPTSD: From Surviving to Thriving, and Dr James Chu's CPTSD: Rebuilding Shattered Lives) you might conclude that I was acting to the best of my ability in the context of the extensive brain damage I was subjected to in an attempt to silence my voice, speaking out against abuse. This illegal use of neuroleptics against me first began in September 2017 by a member of my family who abused their medical license to do so, as they were my biggest abuser and they would rather I no longer breathe to tell the tale. Other family members have since agreed with them. I remain the caregiver of my grandmother, and unconditional supporter of my three younger siblings who I have supported more than anybody else.

I am incapable of protecting myself or my most immediate family from the abuse of other family members. Psychological, emotional, or financial abuse do not leave bruises. Need I send pictures of my own bruises and injuries to you all for my word to regain some weight? I assure you, you would rather not know all the details. I am incapable of healing completely from this abuse. I am incapable of undoing the damage that multiple forced hospitalisations (based, verifiably, on lies each time) have done to my reputation, mind, and body. I am capable though, ar éigean, of improving the education system. I am capable of remaining hopeful and of persevering in line with my morals/values. Morals/values that you previous educational lecturers of mine should be able to remember from my above-average academic submissions (dúirt sibhse they were above-average, not mise!). Abuse is not a battle I've ever chosen, simply something I've survived. It does not deserve my full attention. I became an educator for the benefit of my younger siblings, to minimise the negative effects of our upbringing to the best of my ability. I remain an educator, however, because I still have a lot to offer the education system. You all previously thought the same of me, at some point. Sorry that I haven't made you proud enough, just yet.

Absolutely none of the past three paragraphs should be relevant to a request for an academic reference. I have apologised to each of those lecturers already, despite the fault not being solely my own. scoláire mar seo trí ríomhphost - ní shin post an Dean of Students.

Tá bonnchéim agus iarchéim bainte amach agam, san innealtóireacht, mata, Gaeilge agus oideachas.

Táim cláraithe leis an Disability Support Service.

Ní raibh tada déanta micheart agamsa ar champas a riamh, ní ar an 25ú Márta ná ar aon lá eile. Beidh ortsa níos mó eolais a thabhairt liomsa faoi seo, a bhean uasal.

Ní bheidh mise i dteagmháil libh muna dtéann sibhse i dteagmháil liomsa tríd an Disability Support Service mar is ceart.

An incident on Saturday? While I am a student free to use the Hub to cook my own food? You may have heard false reports about me and your informal meeting is denied. I was present at the Open Day speaking to my Lecturers Dr Ian and Dr Kathy from the School of Education. I do not know you Ms Hardiman, nor John Hannon.

I will be in touch with Student's Union and Disability Support Service before meeting with you as I believe someone must be lying about my behaviour.

Is i gaeilge mo phríomhtheanga, má tá tú chun mise a fhreagairt nó teagmháil a dhéanamh liom arís beidh ortsa clárú liomsa as Gaeilge cén fáth go bhfuil tusa ag iarraidh bualadh liomsa.

Dear Cian,

I am writing from the Office of the Dean of Students with regard to a reported incident on Saturday 25th March 2023 in the university.

John Hannon, the Director of Student Services, wishes to arrange an informal meeting with you to discuss this incident and how best to support you at this time.

Please can you let me know if you are available at 9.30am on Tuesday 4th April to meet. The meeting will take place in John's office in Student Services. Please come to the Accommodation Advisory Centre, top floor, Aras Ui Chathail and staff will show you to John's office.

If you would like to bring a friend with you for support you can do so.

I would be grateful if you could confirm your attendance at this meeting at your convenience.

Dear ,

I have found your original email very traumatising and exacerbative of my diagnosed disability of Complex Post-Traumatic Stress Disorder, to be randomly emailed by the Dean of Students for an invalid reason and intimidated to attend a very specific meeting without any context or clarification, written in a way that implies the complete and utter projection that I am at fault for some reason.

The date you mentioned I interacted with Dr Ian Munday, Dr Kathy O'Sullivan and a previous peer of mine Ms Sarah Butler who was attending the open day to assist the School of Education on the 25th of April. Myself and Sarah in particular are both qualified educators and mathematicians and with her and my lecturers as an alibi I think you will have to respond to both my previous information with some contextual information? It has been 2 weeks, like I said.

I am continuing my studies, despite being contacted by you for no valid reason on the 31st of March.

You have severely negatively effected my mental health and it is not within the purview of the Office of the Dean of Students to be intimidating innocent students for no good reason.

D'fhreagair mé do ríomhphost dhá uair agus nior fhreagraigh tú mise ar chor a bith, beidh ormsa dul i dteagmháil le mo léachtóirí agus mo chomhairleoir míchumais chun fiosrú cén fáth gur cheap tusa go raibh an ceart agat an ríomhphost sin a sheoladh chugam?

Did the role of the Dean of students change since Dr Michelle Millar left? She who I have a very amicable relationship with and would not consider me involved in any vague "incident".

Why have you contacted me, without providing any context, without verifying my disability, without replying to any of my previous emails?

That is not within the rights or role of the Dean of Students. That is an abuse of power.

Whatever your "reported incident" is you will have to provide me with further context before I agree to some random meeting at your request, without even telling me who reported what?

I assure you that I am not at fault, and you have to provide responses via email because I have no good reason to meet with you in person after such a vague accusation of misbehaviour.

Hi ...

In conclusion, how is it that you randomly contacted a random student to randomly assign the information that you wanted to "advise [] of the range of supports [that] can be made available to [me]"?

If you read your original email, it is most certainly read as an email deeming you powerful enough to summon a student that you have no knowledge of, for an "informal" meeting where they can bring a "friend" after an unspecified "incident"? Is that not offensive of my intellect? I responded with proper context of my activities of that day... yet you continue to ignore my responses.

I'm unsure how your response multiple weeks later correctly relates to the original email that instilled anxiety in my academic career. Care to clarify, sir? Do you consider yourself in tenure?

I assure you John, it is in your best interest not to take me for an educational fool. I have a degree in education, and the fact that I believe that after your eventual reply you lied to cover up the fact that you purposefully intimidated a random student that you deem under your purview... YOU'RE the one who contacted me FIRST John. I have enough going on in my life.

It is customary for students to receive a vague email implying guilt of the student? Well jeez-louise John, that imaginary customary action should be looked into, don't you think?

I emailed you, following that, of multiple issues found around campus that effect students. Reply to that email yet, John? It's much harder to act busy than to actually reply. How many students are forced to email you? You intend to imply to a computer scientist that it takes weeks to respond in a generatively deceptive way? Please... you insult my own educational degree.

All of my questions post that first email are recorded on my email account for my own protection. You flaunted your proposed power at the wrong student. Need I remind you John, that I am a student here at NUIG and you are an employee. Take a look in the mirror and re-evaluate your dismissal of my intelligence before you ignore my 'request':

I have emailed multiple times after your first offensive email (don't pretend that Mary Hardiman mistyped) as Dean of Students. Is that not intimidatory John? Search your inbox for my email address and reply to me with each and every answer to each and every one of my socratic questions. That is, John, a very direct request. You have intimidated and traumatised me and the onus is on you to respond appropriately. Who were you to email me out of the blue? Hmmm?

I am a graduate of the BME, do you understand the significance of that John? Bachelor of Mathematics and Education. Top of his class.

You emailed me an intimidatory email and weeeeeeeeks later you say it was for my benefit?

That doesn't make sense John.

Stop abusing a student of NUIG, ffs. That's an acronym sir, I don't take abuse lightly... for future students.

How many questions have I sent to your email address, and how many have you responded to? Answer: numerous, and none.

The socratic method is in use. Freagraigh mé i gceart Mr ... Nà cheap gur amadán mise, le do thoil, tá a dhóthain ar siúl i mo shaolsa. ^{AA}

I have requested a reference from two of my past education lecturers, one of whom I assisted greatly in their Google-funded research for which I received a standing ovation when I took on the bulk of the work for the TY Taster Days, and the other who provided me with significant moral support as I performed independent research during my teaching placement.

I previously received positive feedback and a reference from both, based on my merits. In this case, however, both refused to submit a reference.

scoláire mar seo trí ríomhphost - ní shin post an Dean of Students.

Tá bonnchéim agus iarchéim bainte amach agam, san innealtóireacht, mata, Gaeilge agus oideachas.

Táim cláraithe leis an Disability Support Service.

Ní raibh tada déanta micheart agamsa ar champas a riamh, ní ar an 25ú Márta ná ar aon lá eile. Beidh ortsa níos mó eolais a thabhairt liomsa faoi seo, a bhean uasal.

Ní bheidh mise i dteagmháil libh muna dtéann sibhse i dteagmháil liomsa tríd an Disability Support Service mar is ceart.

An incident on Saturday? While I am a student free to use the Hub to cook my own food? You may have heard false reports about me and your informal meeting is denied. I was present at the Open Day speaking to my Lecturers Dr Ian and Dr Kathy from the School of Education. I do not know you Ms Hardiman, nor John Hannon.

I will be in touch with Student's Union and Disability Support Service before meeting with you as I believe someone must be lying about my behaviour.

Is i gaeilge mo phríomhtheanga, má tá tú chun mise a fhreagairt nó teagmháil a dhéanamh liom arís beidh ortsa clárú liomsa as Gaeilge cén fáth go bhfuil tusa ag iarraidh bualadh liomsa.

Dear Cian,

I am writing from the Office of the Dean of Students with regard to a reported incident on Saturday 25th March 2023 in the university.

John Hannon, the Director of Student Services, wishes to arrange an informal meeting with you to discuss this incident and how best to support you at this time.

Please can you let me know if you are available at 9.30am on Tuesday 4th April to meet. The meeting will take place in John's office in Student Services. Please come to the Accommodation Advisory Centre, top floor, Aras Ui Chathail and staff will show you to John's office.

If you would like to bring a friend with you for support you can do so.

I would be grateful if you could confirm your attendance at this meeting at your convenience.

Best regards

Dear ,

I have found your original email very traumatising and exacerbative of my diagnosed disability of Complex Post-Traumatic Stress Disorder, to be randomly emailed by the Dean of Students for an invalid reason and intimidated to attend a very specific meeting without any context or clarification, written in a way that implies the complete and utter projection that I am at fault for some reason.

The date you mentioned I interacted with Dr Ian Munday, Dr Kathy O'Sullivan and a previous peer of mine Ms Sarah Butler who was attending the open day to assist the School of Education on the 25th of April. Myself and Sarah in particular are both qualified educators and mathematicians and with her and my lecturers as an alibi I think you will have to respond to both my previous information with some contextual information? It has been 2 weeks, like I said.

I am continuing my studies, despite being contacted by you for no valid reason on the 31st of March.

You have severely negatively effected my mental health and it is not within the purview of the Office of the Dean of Students to be intimidating innocent students for no good reason.

D'fhreagair mé do ríomhphost dhá uair agus nior fhreagraigh tú mise ar chor a bith, beidh ormsa dul i dteagmháil le mo léachtóirí agus mo chomhairleoir míchumais chun fiosrú cén fáth gur cheap tusa go raibh an ceart agat an ríomhphost sin a sheoladh chugam?

Did the role of the Dean of students change since Dr Michelle Millar left? She who I have a very amicable relationship with and would not consider me involved in any vague "incident".

Why have you contacted me, without providing any context, without verifying my disability, without replying to any of my previous emails?

That is not within the rights or role of the Dean of Students. That is an abuse of power.

Whatever your "reported incident" is you will have to provide me with further context before I agree to some random meeting at your request, without even telling me who reported what?

I assure you that I am not at fault, and you have to provide responses via email because I have no good reason to meet with you in person after such a vague accusation of misbehaviour.

Hi ...

In conclusion, how is it that you randomly contacted a random student to randomly assign the information that you wanted to "advise [] of the range of supports [that] can be made available to [me]"?

If you read your original email, it is most certainly read as an email deeming you powerful enough to summon a student that you have no knowledge of, for an "informal" meeting where they can bring a "friend" after an unspecified "incident"? Is that not offensive of my intellect? I responded with proper context of my activities of that day... yet you continue to ignore my responses.

I'm unsure how your response multiple weeks later correctly relates to the original email that instilled anxiety in my academic career. Care to clarify, sir? Do you consider yourself in tenure?

I assure you John, it is in your best interest not to take me for an educational fool. I have a degree in education, and the fact that I believe that after your eventual reply you lied to cover up the fact that you purposefully intimidated a random student that you deem under your purview... YOU'RE the one who contacted me FIRST John. I have enough going on in my life.

It is customary for students to receive a vague email implying guilt of the student? Well jeez-louise John, that imaginary customary action should be looked into, don't you think?

I emailed you, following that, of multiple issues found around campus that effect students. Reply to that email yet, John? It's much harder to act busy than to actually reply. How many students are forced to email you? You intend to imply to a computer scientist that it takes weeks to respond in a generatively deceptive way? Please... you insult my own educational degree.
