## Dráma

Chuaigh mé go dtí Baboró. Bhí sé greanmhar mar bhí páipéar leithreas ann. Is maith liom Baboró. Bhí an dráma go deas. Bhí Dave agus Andy go maith. Is maith liom an dráma. Is maith liom Andy. Is maith liom Dave.

## Fothram mór

Bhí éinín beag buí ag eitilt sa spéir,  
Ag súgradh go sásta lena chairde go léir.  
Go tobann sea chuála sé fothram mór thuas,  
Is chonaic sé éan mór ag eitilt anuas.  
Anuas leis an éan mór le fothram is fuaim,  
Is d'ímigh an t-éan beag i bholach go ciúin.

Ní baol duit, a éinín a chroí-

Tá héileacaptar mór ag eitilt na síl.

## The Fugitive

My mum told me off today.  
So I thought-I'll run away.

I didn't really get too far.  
I don't like walking but I've got no car.

If my mum tells me off tomorrow,  
A car is the first thing I'll borrow.

There was a man from Kerry,  
Who lived with a woman called Terry,  
He tripped over a log,  
Turned into a frog,  
And that was the man from Kerry.

There was a young lady from Kerry,  
Who lived with a man called Jerry,  
She ate a mac flurry,  
Then left in a hurry,  
For Kerry.

There was a man from Afghanistan  
Who had a tan,  
He owned a van,  
And that was the man,  
From Afghanistan.

I have done this essay on my most favourite famous person. He is Leonardo De Vinci. He put all that he could in painting famous paintings, for example the Mona Lisa and Madonna of the Rocks. That is why I picked him. If you choose to read my essay you will find out where he lived, worked and died. I hope you like reading it because I certainly liked writing it.

Leonardo was born in Vinci, near the city of Florence in central Italy. The name De Vinci simply means from Vinci. Florence was a commercial cultural center. Leonardo was the son of Ser Piero De Vinci and a pleasant woman named Caterina. Ser Piero was proud of his son. From about 1478 to 1482, Leonardo had a studio in Florence, during this period he painted a church altarpiece called The Adoration of the Kings. He never finished this altarpiece.

He changed forever the art of drawing in far greater numbers than any artist before him, and he was one of the first artists to use sketches to work out his artistic and architectural compositions.

# Madonna of the Rocks

Painted = 1483

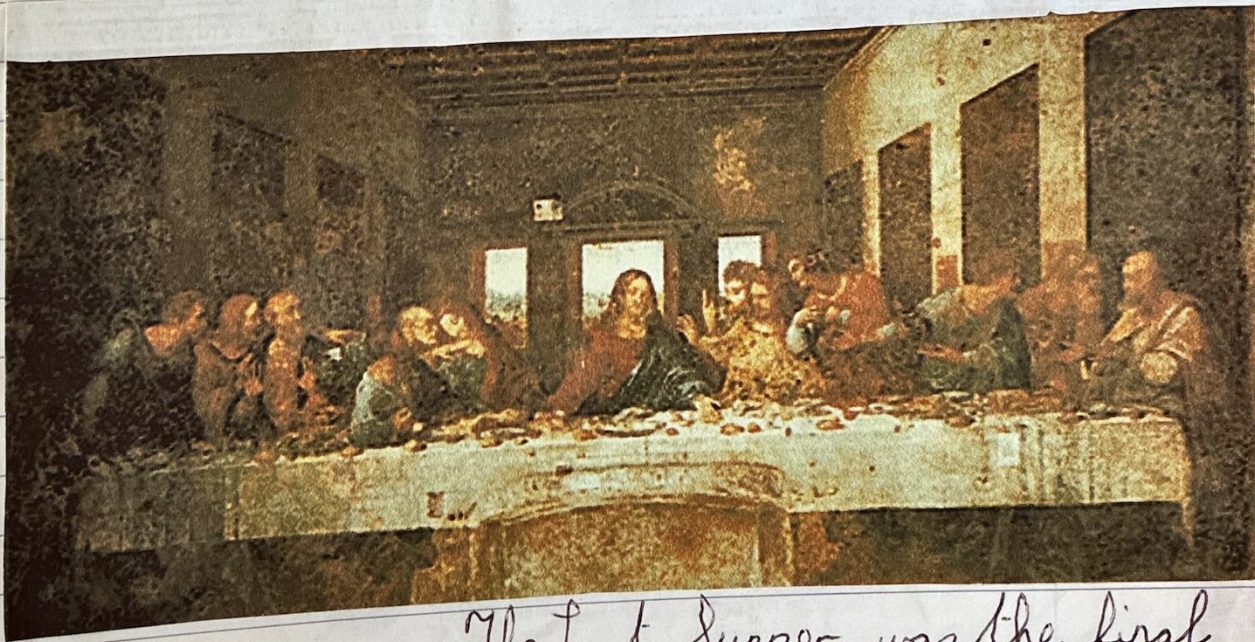

Leonardo had one of the greatest minds in the Italian Renaissance. Many of his inventions and scientific ideas were centuries ahead of his time. For example he was the first person to study the flight of birds, scientifically. Painters tried to immitate Leonardo's knowledge of perspective and his accurate observation of nature.

Leonardo died in Florence 1519. His portrait the Mona Lisa and his religious painting The Last Supper rank the most famous paintings ever painted.

The Last Supper

The Last Supper was the final meal that Jesus shared with his 12 apostles. This painting shows Jesus, seated in the center, just after he had told the apostles that one of them betrayed him.

Painted = 1497

Lá álainn a bhí ann. Bhí na héin amuigh ag eitilt 's ag canadh faoi sholas na gréine bhuí. Bhí na rang a sé go léir ar thuras go dtí an sorcas!!! Nuair a shroich muid ár gceann gcúirse, chonaic muid phuball mór ghorm agus dhearg.

Chuaigh muid isteach agus chonaic muid scoileanna eile ann freisin. Chuaigh go leor daoine go dtí an siopa a bhí ann, le haghaidh 'candy floss' agus 'popcorn'.

Bhí go leor hainmhíthe ann mar chapall, láma, nathair nímhe, crogall agus madraí. Bhí an siúlóid ar ais tuirsiúl ach bhí an lá Go hIONTACH!!!!!!
