To Whom it may concern,

Cian Mac Liatháin completed his third and final year teaching practices with us in GCC from Oct 2019-Dec 2020. Cian's teaching subject is Maths.

As PME coordinator for the school I was responsible for interviewing and placing Cian as well as supporting him along with his cooperating teacher Bernie Moran over the time he was here.

Cian was always punctual and thoroughly prepared for his classes. His attendance was excellent throughout his placement. Cian was eager to take on extra duties and responsibilities and so we offered him after school study supervision. During this time, he not only supervised but also offered help to any students who needed it in Leaving Cert Maths.

Cian had a good rapport with his students and is very knowledgeable in his subject. He has a very gentle nature and a positive attitude, and I have no doubt he will continue to influence students positively in the future.

If you have any questions regarding Cian, please feel free to contact me at the above address or by email at evelyn.jackson@gretb.ie.

Sincerely,

Evelyn Jackson
