The Royal Highway,
Princess
Process Royal

I swear a vow of allegiance to King Charles III,
Queen Camilla, Princess Catherine Middleton, Prince William
Windsor, ~~Prince Harry Windsor~~ and ~~Prince Louis~~ Meghan Markle
the Duchess of Sussex, to pledge my life force and
willpower for the betterment of their families, the Crown
and the Realm, Commonwealth and British Isles in line
with the will and virtue of the Royal Family.
P.S. I have concerns about Harry's ~~trans~~ ^{at 11:6} and ^{foreal} ^{psycholiz} ^{MS} ^{dragging of Markle}

I ask nothing but to serve, educationally. Robert Jordan's
The Wheel of Time's fantasy series involves the concept of
an Aes Sedai ('Servant of All'). That is you. That is I.
(cf. Michael Livingston's The Mythologies of the Wheel of Time).

Now can I
afford my British
Passport - but
on a citizen
since birth.

I could
learn it.

I have a box of books (Philosopher's Stone in Irish, and
in French. The Magician's Nephew in French. The Northern Compass
in French.) What better way to promote multilingualism in
Prince George, Charlotte and Prince Louis? Read the English
version first, be able to follow along in another language.
But I can't afford to post them. I apologise I missed Prince George's birthday.
I know ~~little~~ ^{not} Welsh, but know technology. Wish to
digitise the King and Queen to exponentialise their power?
Wish to promote the prince's and princess' to become Apple
technology experts (Apple important for privacy, hardware, software,
user interface)... that would be my honour and obligation. ji'eh'toh

I have nothing to offer but myself, I know it is not much.
I fear I won't survive this multi-faceted attack upon my
stature and life. Too many attempts now, not at my own hand.
My legal cases would have a lot of people in HSE/Garda/
government in trouble? Need I revoke my Irish Citizenship to
serve? Regardless of response, my life force remains pledged towards the
Crown.

(5) and coping mechanisms I use to manage my complex PTSD from child abuse, the abuse by HSE and Gardaí, and now abuse from QUB. Anxiety misconstrued as anger and aggression. Truth disbelieved as lies. Genderfluidity being ignored. Stature as a mathematician, computer scientist, ^{and in} educational psychology, sociology and philosophy ignored. Torturous.

I thought I would gain safety in your United Kingdom of Great Britain and Northern Ireland. I thought I would be treated honourably. What has happened to honour, where has it gone?

I have studied ahead, I am capable of revolutionising minority language schools (Irish Gaelic, Manx, Scottish Gaelic, Welsh) through a PhD proposal carried out in association with perhaps Oxford's, Cambridge's or Edinburgh's Apple Mh PhD scholarships + there ability to create Apple Distinguished Schools. Improved formative assessment to improve teacher burnout, reduce student anxiety, improve learning. I am overeducated, underqualified, poor, ~~tired~~ but never without hope or loyalty.

great rapport
with some teachers,
others won't know
me.

I have extensive experience teaching throughout Galway in:
{ Coláiste na Corrib, Merlin College, Coláiste Iognáid, Galway Community College.
{ Corrib Kids Coding charity: Gaelscoil Dara, Gaelscoil Mhic Amhlaoibh

No crimes

Fully Garda Vetted, Clean Police Certificate, Enhanced Access NI Cert. Devoted myself to education to minimise the extent of my younger siblings' CPTSD. I am failing the Realm, I lack resources and time, not willpower or hope.

Knowledge is power,
understanding is wealth,
moral teaching is essential,

After surviving the extreme pain of homelessness in ~~Jan~~ Feb - August 2019, abducted by Jordan again, chemically lobotomised again... I had to finish my degree.

I now have a first-class honours degree, ~~in~~ a Bachelor of Arts in Mathematics & Education, Higher Diploma in Software and Development. Diploma sa Lyhaedje.

work experience with AppleCare, in their Hall of Fame multiple times. I may not have a MSc yet. In fact, I tried to get ^{for the} ~~one~~ ^{stamp} ~~approval~~ this September at Queen's University Belfast, now to think a Russell Group ^{uni} was some sort of sanctuary. I followed the correct advertised complaints procedure against a bouncer who accosted me and an ableist disability advisor. The University found this... offensive. I was assaulted multiple times due to false accusations and a slanderous suspension against me. Related to PSNI Crime Numbers 1618 and 1041 that I reported as the victim. I was deemed a 'mental' patient after reporting to Royal Victoria Hospital for help with a severe concussion and no safe place to stay following my windows of my tenancy 56 Ealscourt Street being smashed in, (I have evidence my landlord was involved ^{→ Luke Ward (Culture Fed)}) due to rumours of me being a fake person named 'Cian Coole' a sexual predator. - I received a threat messaging from a PSNI Alon who advised of credible threats to my life. I was severely sleep deprived and in pain, mocked by many Royal Victoria staff (see Instagram: whistlingmilk). Some but not all crime numbers, haven't had the courage or means to pursue: 1618 1041

I have been sent to Belfast City Acute Unit where my valid disability is discredited, false reports by QUB given full weight and my misdiagnosis of schizoaffective disorder somehow making it to NHS systems. All requests to refute this misdiagnosis, and refute their report that I've sent threatening emails ignored. All blocked.

(3)

Dr Colm McDonald associating me with psychosis/schizophrenia disorder I was not believed. I put them in the post box of the General Post Office of Dublin as my life was at risk. ~10 false Garda brutality arrests in Lyalway leading to severe damage to my skull and body left me with no one to trust. The official complaints procedures of the HSE, Garda Ombudsman, MSE Ombudsman resulted in mockery of me and no help... while patients/people that he interacts with remain at risk.

I fought through the ^{needless} neuroleptic withdrawal, self-treated my Complex Post Traumatic Stress Disorder via Pete Walker's From Surviving to Thriving and self-medication of legal and healthy neuropeptides such as BPC-157, Selank, Semax, CTC-NoDAC and Ipamorelin, noninvasive brain stimulation of Transcranial Alternating / Direct Current Stimulation. My love for my younger half-siblings (Rhy O'Loughlin ^{→ although he gets his now - I'm glad my best!!} on my Mom's side, Rachel MacLavery-Lyons and Emily MacLavery-Lyons on my Dad's side) My time homeless severely effected my sense of safety and comfort. My time at 21 performing my grandfather's palliative care took a lot out of me. My mother confuses me for her firstborn, calling me 'sick' and ~~hostile~~. My father has recently told me 'I don't understand love'. My sister Rachel's diabetes type 1 is being mistreated by my stepmother Sheenagh MacLavery. I tried to communicate this to ~~her~~ her principal and was further ostracized. She wants her daughter, my half-sister and goddaughter left weak and dependant on her. The pain of not being able to help is unbearable. Rumours have flown that I've abused others, am a threat to others. I was raised partially by my loving Mom, my stressed Dad ^(who put me on an interim hearing order - I'm discussing Sheenagh) but mainly by my grandparents. I gave my younger siblings comfort, guidance, laptops, coping mechanisms - my all. I am failing to protect them.

Sheenagh has financially, verbally and emotionally abused them for years

(2)

that I couldn't stay silent about. Horrible things, patient notes pertaining to patients in his 'care' as he moved from hospital to hospital from ~~Doregal~~ Galway → Doregal → London → Dublin. Research into carcinogens, itinerary from when he travelled to North Korea in 2015 - one year after my grandfather's sudden unexpected death from ~~the~~ cancer that spread throughout his body... notes on psychological manipulation, evidence of other doctors' explaining how to ~~to~~ defend himself while he was under investigation. As I spoke out about this, and his sexual, physical, mental abuse of me and other members of ~~his~~ our family I was not believed. He has spent time with Doctors without Borders, 'helping' natives of your Commonwealth nation of Australia. ~~He~~ ^{Either spites patients, gives just too little one side or that they still feel pain or worse.)}

I did not know the extent of his crimes then

I was naive in September 2017 telling him 'I remembered what he did' when I was recalling flashback of his ^{triple torture} molestation/attempted rape of me throughout my life. He picked up the phone labelling me as psychotic. I was battered and bruised by Gardai, placed under the inpatient care of his psychiatric professor Colm McDonald of UCHG/University of Galway. As I resisted neurodegeneration via forced ~~GRI~~ withdrawal and very strong neuroleptics to enforce a chemical lobotomy ^(Get Dr Peter Freyger) and limit my self-efficacy and self-agency, I sustained a damaged jaw, sick at hands of family members who were neglectful due to financial pressures growing up but now believe me trying to speak out and protect his 'patients' that he sees as his playthings. He has psychopathic poems to paint the world in madness, documents like 'North Korean Dreams for International Healthcare'. I was made homeless for 6+ months, my emotional support animal was killed. I contacted Teeseach Leo Vadkar, other members of government, the emails of MI:5, MI:6 pleading to them to take the hard drives from me. After him, Dr George Rahmani and

My name is Cian Mac Liathair, (Cian Lyons if translated from
the Goidelic language of Gaelic/Irish Gaelic to English). I was born
in 1993 on the 10th of February at University College Hospital
Galway to my father Gregory Lyons of Renmore, Galway and
my mother Margaret Mary Deacy (Peggy) who was born to my
grandmother Margaret Deacy (Heinz) and grandfather Neil (Neil?) Deacy
in Derbyshire on 06/03/1967 (est.) while my grandparents had emigrated
to try to make a living. This letter is written to with hope
to offer service in two specialised ways (education/technology/computer science)
to the Royal Family that I have always admired - in any way
you deem me useful or worthy - if at all. I would never presume
myself worthy of contact from Royals of your stature, regardless of
my absolute value - this is a symptom of my anxiety/trauma/identity
disorder of Complex Post Traumatic Stress Disorder for which I have been
receiving Disability Allowance from the Irish Government since October 2017
by a kind-hearted psychiatrist Dr James McDoughlin of the HSE via the Counselling/
Disability Office/Student Health Unit of my home university University of
Galway / Ollscoil na Gaillimhe (previously National University of Ireland (NUI) Galway),
previously Queen's College Galway). I had to rush to get this diagnosis and
disability allowance (via my research into Pete Walker's From Surviving to Thriving, Dr
James Chu's Rebuilding Shattered Lives) following severe malpractice by a Dr
George Rahmani, Dr (Professor) Colin McDonald and my only full-sibling, a very
dangerous and smart man Dr Craig Lyons. There is some unfortunate context
to be given about my upbringing in a broken family, but I add that only
to inform, and aim to end with explanation on how my qualifications/merits/
experience can be used for the benefit of the British Isles - if only I had
more time, resources and safety.
